

# BRAIN INJURY DIALOGUES

A New Documentary On DVD

Rick Franklin, a brain injury survivor of 17 years, teams up with friend and documentary maker Lyell Davies to explore what life is like with a brain injury.

As they visit with survivors, invisible aspects of this disability become more clear. We see a wide range of deficits that survivors must face, both physically and mentally, and learn how no two brain injuries are alike.

We also hear ways survivors learn to deal with their lives after a brain injury by means of personal, medical, and even political strategies.
